

SMALLER LIGHTER STRONGER

The new MQ BLDC series

- > 60 % more torque and 15 % less total length
- > 10 –15 % more efficiency
- > Degree of protection up to IP 65 (higher degrees of protection upon request)
- > Fully functional in combination with the GEFEG-NECKAR modular kit (planetary gears, spur gears, worm gears, integrated controls, encoders, brakes)

Specifications of the MQ-motors:

	M Nm	P W	n min ⁻¹	η %	L mm	∅ mm
MQ 637	0,27	84	3.000	81 %	82	68
MQ 667	0,60	188	3.000	85 %	112	68

These values are preliminary measurement values.
